

Linearity

Reference line should be flat and horizontal

Homogeneity of Variance

Reference line should be flat and horizontal

Collinearity

High collinearity (VIF) may inflate parameter uncertainty

Normality of Residuals

Dots should fall along the line

Normality of Residuals

Distribution should be close to the normal curve

Normality of Random Effects (Site)

Dots should be plotted along the line

Normality of Random Effects (Species)

Dots should be plotted along the line
